VICTORIOUS JAPS Beds Beds

Defeat the Russians in a General Engagement at Mukden

WILL RUN THE BLOCKADE

Russian Port Arthur Fleet Will Attempt to Escape. Japanese Troops are Advancing and Making Good Progress.

RUSSIAN TROOPS RETIRE.

London, September 30th.—Telegraphing from New Chwang September 29th the Daily Mail's correspondent says: "The main force of the Russian army has retired to the north of Mukden. Strong bodies of troops have been thrown out to defend both flanks and the southern approaches to the city have been carefully mined. The indications are that no serious attempt will be made to hold Mukden."

JAPS ARE VIGILANT.

Chefoo, September 30th.—A Japanese torpedo destroyer at midnight last night landed near Chefoo 18 Chinese coolies whom the Japanese had taken from a junk which was attempting to run the blockade and carry mail from Port Arthur. The captured Junk was burned. The Chinese say that two Russians disguised as Chinese were kept prisoners on the destroyer and that two Chinese probably perished in the flames of the burning junk. The Chinese, who left Port Arthur September 27th confirmed the Associated Press advices of September 28th saying that the last assault was the old story over again, the Japanese intrepidly entering the Russian positions but being unable to remain in the face of the fire from the large forts.

JAPS GETTING READY FOR THE FRAY.

Mukden, September 30th.—The delay in the resumption of the aggressive by field Marshall Oyama, according to the best information, is due to the necessity of making good the losses which he sustained at Liao Yang and to the bringing up of stores and ammunition, but the preparations for an active forward movement of the Japanese seem to have been completed and the collision is regarded as imminent. Gen. Kuropatkin to-day reviewed several detachments of troops which have just arrived here and conferred the St. George's cross upon 18 officers who distinguished themselves at the battle of Liao Yang.

JAPS VICTORIOUS.

London, October 1st.—According to the Morning Post's Shanghai correspondent it is reported there that the Japanese have been victorious in a general engagement at Mukden.

WILL RUN THE BLOCKADE.

Tien Tsien, October 1st.—Russian officers here admit that it is the intention of the remaining Russian war vessels at Port Arthur to attempt to escape. They say that they expected the movement one week ago and that it may be expected daily. German war ships are cruising outside of Tsingtau daily. It is believed that if any of the Port Arthur fleet should attempt to reach that port it would be examined at sea and if found seaworthy be advised not to enter the Port.

JAPS MAKING SPLENDID PROGRESS.

St. Petersburg, October 1st.—It is admitted that the Japanese advance has already begun along the whole line, assuming the most active form in the east, while Field Marshall Oyama continues to draw large forces of Japs who are pressing for the railway. The Associated Press says in a despatch that the Japs occupied Siaobeyho west of the Liao river from which point they are evidently threatening Simsimin.

REV. GORO KABURAGI

Impressed with the Edmonton District. His Opinion of the Russia Japanese War.

Rev. Goro Kaburagi, M.A.B.Sc. of Vancouver, a Japanese Methodist minister and a member of the British Columbia Conference, has been spending the past few days in this district. He accompanied Dr. McLaughlin, superintendent of Methodist missions on his visit to Fort Saskatchewan, Saddle Lake, Whitefish Lake and Victoria districts. He was greatly impressed with the country astonished at the remarkable richness of the soil, and surprised that such a country had not been settled years ago. Northern Alberta seemed to be prepared by nature for the homesteader—open stretches of country among the wooded foothills, plenty of water, inexhaustible supplies of coal. The great growth of vegetation was also a surprise to him. Mr. Kaburagi is evidently a believer in the old adage, "Seeing is believing," for he is taking back to the coast with him numerous samples of our garden truck, our grains and grasses, our coal, fish and other natural resources. He is also taking samples of pemican and dried moose meat.

Mr. Kaburagi has been engaged in the ministry in Vancouver for three years. This year he has been absent on a vacation, and having read a great deal of Northern Alberta, and believing it to be a specially favored district for mixed farming, he decided to spend his holidays here. He has previously come up the line as far as Strathcona, but what he wanted was to see the country districts. His present trip is the result. He has always been telling the coast people of his own nationality and others of the great future that is in store for the Territories. He had been telling them of our natural resources, and in response to their questions expressive of doubt, could only say that his information was hearsay. Now he can speak authoritatively on what he has seen for himself.

When asked if he intended organizing a Japanese colony of farmers for this district, he stated most positively that he had not entertained such a proposition. He regretted that certain papers were attempting to make political capital out of his visit. He resented the statements of the Winnipeg Telegram to the effect that his object was to promote a Japanese immigration with the expectation of the Grand Trunk Pacific construction furnishing them with work. No organized movement of Japanese immigration is being considered for a moment. The Government will not be asked for an acre of land. The Japanese farmers that Mr. Kaburagi is advising, and whom he would like to see settle in Northern Alberta, are men of wide experience and means; men who would devote all their time to the cultivation of their own farms. He believes the better class of Japanese farmers would do remarkably well in Northern Alberta, and they would be a credit to the country. His people he describes as thrifty and inventive as well as imitative, just the class of settlers for a new country. At home in Japan their principal crops are rice, tea, wheat, barley and sweet potatoes. They engage extensively in the raising of domestic fowl. The Japanese would make good loyal Canadians as loyalty is one of their cardinal virtues. The Japanese are a people of great energy and industry. They are a people of great energy and industry. They are a people of great energy and industry.

Mr. Kaburagi was greatly pleased with the Territorial September weather. He has seen at Edmonton. The climate is as mild as that of northern Japan. He believes that Edmonton will be the Chicago of the north. The railways and the river will inevitably build up a big city at this point. Mr. Kaburagi edits Japanese paper in Vancouver that has a large circulation among his fellow countrymen. In it he will tell his people of the great resources of these Territories and particularly of Northern Alberta, the part he knows from actual experience.

Mr. Kaburagi spoke most interestingly regarding the present war between his mother country and Russia. While he regrets the fact that war was necessary, he believes that the hand of Providence is working in the war. He is confident that Russia will come out second best in the conflict, and that civilization will be carried into the heart of Korea and Asiatic Russia. He speaks impassionately of the war and states that the Russians' under-estimated the fighting ability of his people. They, the Russians, thought us unprepared and we didn't dare fight, said Mr. Kaburagi, but we have shown them that we would dare and that we were prepared. The Japanese people are intensely patriotic. All politics have been dropped and all classes and factions have united to help the government in the present conflict. A vast patriotic fund has been voluntarily raised. The invention by a Japanese of Shimose powder had been kept an absolute secret until it was used in the present war, when it was needed most. The world did not know that Japan possessed some of the finest cannon yet invented. The Russians have shown that they were not prepared. He believes that Port Arthur must soon fall, and that relief cannot come, and that the condition of the city, owing to the close siege by the Japanese, must be in a terrible state. Japan had showed her advance in civilization by sending to the front twelve ministers, one from British Columbia.

He spoke briefly on the causes leading up to the war. The Russians had unlawfully seized Manchuria and held it, notwithstanding repeated promises to remove. Korea had been down trodden. The present war would be the means of bringing modern civilization to long-benighted China and Korea, and to the darker portions of Asiatic Russia.

The Japanese were good soldiers. They have been trained up to it. Thirty-seven years ago took place a great civil war between the modern party and those opposed to the opening of the country. Ten years later another war was waged over the policy of the nation regarding the punishment of Korea, which was giving Japan trouble at that time. This prepared the Japs for the China-Japan conflict, and this in turn prepared the nation for the present conflict. The Japanese have put modern naval weapons of warfare to the test. They hope for universal peace and an opportunity for expansion along the lines of commerce. The British-Japanese alliance was a most popular and Providential one, and one that will have far reaching success.

Rev. Mr. Kaburagi leaves shortly on his return to Vancouver.

SOCIALISM.

Editor Bulletin.

In his Labor Day discourse at the fair grounds, Edmonton, Mr. John McLennan made an unwarranted attack on Socialism. If it were not for mis-statements that he made in regard to what Socialism really is, and what it means to accomplish, it would not be necessary to notice it; but as many who heard and read his discourse might not otherwise have an opportunity to hear the truth about Socialism, but would take it for granted that the speaker knew what he was talking about, we have decided that it is important to reply.

The speaker seems to say, or as far as I can follow the windings of his mind denies the identity of interests between capital and labor, and further on he says that socialists are dreamers. These statements plainly prove to anyone who knows, that the speaker either does not know what Socialism is, or else he attempted to mislead. In either case we cannot overlook his attack, for if he is ignorant on the subject he should not have attempted to speak upon it, authoritatively. The truth is that Socialism is the only system of production and distribution that will guarantee to every human being the possession of the private property to which he is entitled, by reason of his having produced it by his own efforts. The present capitalistic system for which the speaker stands denies the individual the opportunity to own and control the product of his toil, which is the only private property that anyone can rightfully own, as no one can justly claim that which another has produced, except that which he has rendered equal service. That the present capitalistic system is one of exploitation, is scientifically set forth in the declaration of the Socialistic doctrine in that it permits the purpose of making profit the ownership of the land, tools and machinery which all the people must use in order to live, thus making the great mass of the people dependent on the few private owners, who can use this great power for every means of oppression and tyranny. It is the exercise of fear of this privately owned power which causes the present economic discontent that alarms the speaker. For the enlightenment of this gentleman we will state what Socialism really stands for, as we will presume that he does not know. Socialism stands for collective ownership by all the people of all the means (machinery, and natural resources) which the people collectively use in producing the things which the people must individually use. It also stands for the management of these collectively owned means by all the people who use them, and equal opportunities for all the people to the use and benefits of the same. Is there anything in these propositions that would destroy ambition? Is there anything that would indicate that socialists are dreamers? Certainly not. On the contrary, it would secure to the workers the opportunity to own private property by giving them access to the use of these collectively owned means of production, which is

now denied them on account of these means now being privately owned—a condition which has reduced the workers to the state of the propertyless class.

Socialism says that every man, woman and child shall have the right liberty and the pursuit of happiness and an opportunity to earn an honest living.

Capitalism says that no man shall have the right of life unless some other man has got a job for him and says that no woman has the right to become a mother unless the labor market is in need of more live stock for the mills and shops. Socialism says that all things must be used collectively, shall be owned collectively, and all things which can be used individually or privately shall be owned individually or privately.

The object of collective or public ownership is to give to the people the use of the means at what it costs to use them, and to give to each the full value of their work. The post office and mail service are collectively owned and operated but each individual gets the use of the service at what it costs for labor without paying profit to the postmasters. Waterworks, lighting plants, roads, bridges are owned collectively, but each individual gets the use of these at whatever it costs to maintain them. This is true, notwithstanding the fact that neither the post office, waterworks, and the lighting plants give the workers an equal opportunity to work, nor any voice in their management, which would be the case under Socialism.

The schools are all owned and managed collectively, but each individual owns his education privately. The schools give an equal opportunity to every individual to become educated, but all individuals do not acquire the same amount of education. Under Socialism all would have an equal opportunity to produce wealth, but all would not produce the same amount of wealth. Under Socialism all the people would own collectively the means for producing wealth, but the individuals would own privately the wealth or its equivalent which each produced. The people would own the land collectively, but the individual would own privately the food produced, in proportion to the service each rendered. The people would own the mills and factories collectively but the value that was added to the products of the factory would be privately owned by the individuals who did the work.

The mills that make lumber, sash doors, glass and nails would be owned by the people collectively, but the homes could be owned privately by anyone who would work enough to pay for a house. But palaces could not be owned by those who do not work, nor could houses be owned for the purpose of exacting high rents, for the people as a whole would provide homes for all at the cost of maintaining the same; so there could be no profit for any landlord. In fact, all things that a man would desire to own privately under Socialism would be such as

H. LECLERC - PROP.

ELECTRIC
LIGHTS

All private house electric light takers have been notified that residential lights will be cut off on Monday, October 3, for about two weeks owing to the installation of the new electrical machinery. This is rendered necessary because the power available will barely be sufficient to carry on the business and public lighting of the town. Other reductions may have to be made if commercial and other light takers do not exercise strict economy with their lights during the next couple of weeks.

CHILDREN'S DAY SERVICE

The annual children's day service of the Edmonton Presbyterian church will be held in the body of the church to-morrow afternoon at three o'clock. The children will meet in the basement to have their class books marked. A special collection will be taken up to defray general expenses of the Sunday school work in the Presbyterian Church in Canada. The church will be decorated and each child will be provided by the teachers with a bouquet. Rev. D. G. McQueen will speak on Christ and The Book, and Rev. A. M. McDonald on The Teachers. All parents and friends of the children are invited to be present.

TELEGRAPHIC

CUSTOMS RECEIPTS

SHOW A GREAT INCREASE

An Evidence of the Great Prosperity which the Dominion is Enjoying.

Ottawa, October 1st.—The prosperity of the country is shown in the customs receipts of the Dominion for the month of September.

The receipts are \$3,990,000, or nearly \$150,000 more than for September last year.

IN THE LEGISLATURE

SHORT SESSION YESTERDAY

The Bill to Incorporate the City of Prince Albert Receives its First and Second Reading.

Regina, September 30th.—A few minutes sufficed to finish the work of the Session this afternoon. A number of first readings were on the paper and put through and the bill to incorporate the city of Prince Albert was given the first and second readings. Thos McKay, Prince Albert, was in his place for the first time since the opening and got down to work at once, as the quick dealing with the Prince Albert bill shows.

HOMESTEAD ENTRIES

There were 221 homestead entries made at the Edmonton Land Office during the month of September. A large proportion of those making entry were well-to-do American farmers who also purchased farm lands extensively. Very few foreigners made entries for homesteads.

THE HOSPITAL BALL

The annual ball in aid of the Edmonton Public Hospital was held in the Thistle Rink last evening and was a most pronounced success. The hall was prettily decorated with flags and bunting. This, combined with the numerous dancers made a very brilliant scene. Two hundred and twenty-five persons were present, a large majority, of course, being Edmonton people. Fort Saskatchewan, Strathcona, St. Albert, Leduc and

NEWS OF THE WORLD

IN BRIEF PARAGRAPHS

Condensed Dispatches Dealing With the Day's Most Important Happings

Winnipeg, October 1st.

The Government has purchased the Canada Eastern.

A Russian gunboat was sighted on the Pacific coast.

T. O. Davis, M. P., and J. H. Ross, M. P., have been appointed Senators. The memorial statue of Queen Victoria in Winnipeg, will be unveiled to-day.

The freight handler's strike at Port Arthur has been settled.

Very encouraging reports are received from western harvest fields.

The Bill incorporating Prince Albert as a city was read in the Territorial Assembly.

F. W. Watts, of Winnipeg, under arrest at Moose Jaw, for robbery, may be charged with the murder of Alex Tuffan whose mangled remains were found in the C. P. R. at Moose Jaw.

The opening shots were fired in the federal elections. Mr. Jackson issued his address to the electors of Selkirk.

The Dominion Cabinet ministers are preparing to leave on the campaign tours; Mr. Sifton is coming west next week.

Clover Bar were well represented. A few were present from Calgary, Westsaskin and other C. & E. towns. Dancing commenced at nine o'clock, Clarke's orchestra furnishing splendid music and everything passed off harmoniously. Tables were arranged on the stage and refreshments served by the hospital ladies. The refreshments were all donated by the people of the city. It is especially satisfactory that as the ball was a great social success, it was also equally successful financially. While the exact receipts have not yet been calculated it is expected that they will exceed \$225 net. The patronesses of the ball, upon whom much of the work fell and to whom is due much of the credit for the success of the ball were: Mrs. Almon, Mrs. Bouchier, Mrs. Braithwaite, Mrs. Harrison, Mrs. Manson, Mrs. Morris, Mrs. Oliver, Mrs. Ross, Mrs. Secord, Mrs. Short, Mrs. Strathy, and Mrs. Turnbull.

Notice.

Private house light takers are requested to take notice that all residential lights will be cut off on Monday, October 3, 1904, for a period of probably two weeks owing to the installation of the new electrical machinery. The power available will be barely sufficient to carry on the business and public lighting of the town, but any further reduction of lights may not be necessary if commercial and other light takers will exercise all due economy. By order GEO. J. KINNAIRD, Sec. Treas., Town of Edmonton. d-226-234

Notice

Notice is hereby given that an application will be made at the next session of the Legislative Assembly of the North West Territories for an ordinance incorporating a company with power to carry on a lumber business in all its branches, with power to utilize and improve the Saskatchewan river from and above the Town of Edmonton for such purposes, and to build and operate electric or other tramways from the company's timber limits west of Edmonton to and along the Saskatchewan river or to Edmonton or to such other point or points as may hereafter be found desirable, and to carry on other manufacturing businesses or works with such further powers as are incidental to or expedient for the due attainment of the above objects or any of them.

Dated at Edmonton this second day of September, A. D. 1904. Short, Cross, Biggar & Ewing, Advocates for the Applicants. d-208-215-222-229.

Orange Meat A Perfect Food

THE planters from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant nipped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

In this way the good of the tobacco—the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filler is perfect—an even smoker—palatable and delicately odorous.

J. BRUCE PAYNE, Limited, Granby, P.Q.

For the rest I use as binder a Connecticut broadleaf, the highest grade and most costly binder grown—and as a wrapper I import direct from Holland a genuine clear leaf Sumatra—the finest wrapper in the world.—J.B.P.

SOCIALISM.

Continued from page 3

furniture, pictures, musical instruments, carpets, carriages, horses, automobiles, etc. No one would want to own railroads, factories, stores, lighting plants, coal mines, for the people would provide these for themselves, and operate them without profit; hence, as private banks could not earn dividends, they would be of no value to the owners.

Socialism is then simply, the people going into business for themselves with the things that they desire to privately own and use.

We fail to see where the identity of interests between capital and labor comes in. We always supposed that capital was in business for profit, while labor's share came in wages; therefore, capital wants all the profit it can wring out of labor while labor wants all the wages it can force out of capital.

We can agree with the speaker, that strikes and lockouts are unfortunate; and it is because we realize this, for one thing, that we purpose to end these by depriving the capitalists of the power to deny the workers a job, unless the workers first agree to give up the larger part of their labor product. The speaker admits that the worker should have a just compensation. What proportion of the product does the speaker think just? The Socialists say that the full value of the labor belongs to the man or woman who does the work. The Socialists are the defenders of the rights of the workmen. Shall we abandon the only ones who are pleading our cause and fighting our battles? We urge Mr. McLennan to study Socialism, abandon his defense of capitalism, and come over and work for the co-operative commonwealth as we are sure he will do once he understands the philosophy of Socialism.

A. J. McARTY.

C. N. R. BRIDGE TIMBER

The despatch from Battleford in yesterday's Bulletin regarding the Can. Northern bridge timber was received with a great deal of pleasure in Edmonton. Owing to the exceptionally low water in the river a number of the rafts of bridge timber being transported to Battleford had been hung up on the sand bars. As this timber was to be used this winter in the construction of the Battleford bridge, many feared that its delay along the river until the winter came would delay the construction of the bridge. This would

have had the effect of prolonging the time before Edmonton will be connected with Winnipeg by the C.N.R.

Yesterday's despatch, however, greatly dispelled these fears. Twelve rafts of the timber are now at Battleford, and the crews have returned to Fort Pitt to bring down more timber. All the rafts on the river are now below Victoria, well on towards Fort Pitt.

Bridge construction will proceed during the winter.

Underwear a Farmer Needs

Regular weights won't do for the farmer. He must be warmer clad, because his work about the farm and long drives to town keep him out in the cold so much.

Stanfield's Unshrinkable Underwear

comes in special weights, especially for farmers. Special weights don't mean clumsy, bulky garments. Stanfield's Underwear is so warm because of the peculiar knit of the garments. It's pure Nova Scotia wool, that has been treated to take out the shrink and leave in the softness. We—and your dealer—both guarantee Stanfield's to be unshrinkable.

The Business Man

*Though supply his business keeps bringing in wealth,
He grows, "What's the use, for I've now lost my health,
My friends were more careful, Abbey's Salt took each day,
And they are still young, while I'm old and gray."*

When success depends on health, one can't afford to take risks with his digestive organs. A man can't think of business and biliousness together.

Many a serious error in judgement has been made because the brain has been befogged by an upset stomach or a torpid liver.

ABBEY'S SALT, taken in the morning keeps the blood cool, sends the business man to his office with active brain—and the mental and physical power to grasp every problem.

BULLETIN CO. LTD.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clause 2, 3 or 4, must or substitute 20 head of stock, with buildings or their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homestead, and the land may then, to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior. N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Superfluous Hair

Removed by the New Principle.

De Miracle

It is better than electricity, because it does not burn or produce a new growth. Better than X-ray, because it does not burn, scar or paralyze the tissues under the skin. Better than depilatories, because it is not poisonous; therefore, it will not cause blood poisoning, or produce eczema, which is so common with depilatories, and does not break off the hair, thereby increasing its growth.

Electrolysis, X-ray or depilatories are offered you on the bare word of the operators and manufacturers. De MIRACLE is not. It is the only method which is endorsed by physicians, surgeons, dermatologists, medical journals and prominent organizations.

De MIRACLE will be mailed to any address, sealed, in plain wrapper, on receipt of \$1.00. Your money back without question if you do not find it to do all that is claimed for it.

Our booklet—the most complete treatise on Superfluous Hair ever published—containing the testimonials of numerous physicians and surgeons and those of hundreds of others—will be sent free, in plain sealed envelope, upon request. Please enclose at your local druggist or write De MIRACLE Co., 23 Queen St.

INTERIOR CONSTRUCTION
PROGRESS BRAND COAT

"Progress" Anatomy

Fine fabrics and trimming alone won't produce fine clothing. Fit and shapeliness, and wear, too, depend on the hidden parts—the work you don't see.

This illustration shows the anatomy of "PROGRESS" Clothing. Note the shoulder and sleeve pads—the felt, hair cloth, and pure linen canvas, thoroughly shrunken.

All these parts are modeled by hand and held in shape by thousands of tiny stitches. It is only by hand work, by expert tailors, that "PROGRESS" Clothing gain their shapeliness, and hold their perfect form.

"PROGRESS" Clothing is the finest fabrics and best trimmings, moulded by specialists into permanent shape.

This label in every genuine "PROGRESS" Coat

Revillon Brothers LIMITED

LONDON, PARIS, NEW YORK AND EDMONTON

LOCAL

The Innis Hotel and Cafe will have a formal opening Monday.

Regina is building a barrel shaped skating rink, 170 feet by 60 ft.

The new machinery for the Strathcona electric light plant is en route.

A lecture will be given Monday evening in the Methodist church by Rev. John Morrison of the London Conference.

Rev. C. H. Huestis returned last evening from Southern Alberta. He attended the Methodist Sunday school convention in McLeod.

The regular monthly meeting of the Women's Aid Society of the Edmonton Public Hospital will be held Monday afternoon at three o'clock in All Saints' school room.

The permanent power house of the Strathcona electric light and waterworks system will most likely be constructed on the flats just across from the Edmonton power house.

The lumbermen and mill owners of Edmonton and Strathcona have just arranged a new list of prices of lumber which are considerably below those which have been in existence for some time.

Plans have been prepared for the new hockey rink in Strathcona, but no definite arrangement for construction has yet been agreed upon by the committees. Joint efforts will be necessary to get the rink into shape for this season.

Free Lance, September 27: Last week at the Innisfail tannery there were made 5,762 lbs. of butter, over 1,000 lbs. more than during the corresponding period last year. The output so far this season is 1,159 lbs. more than the total last summer, and there are yet five weeks to work in.

J. A. Macdonnell's Peace River exploration survey party left to-day for the north in charge of J. Belloc, C. E. assistant to Mr. Macdonnell. Mr. Macdonnell will leave in a few days having to go to Winnipeg before proceeding north. H. B. Round is a member of the party. They will be gone about eighteen months.

AT THE CHURCHES

To-morrow is hospital dedication day at the churches.

Rev. D. G. McQueen preaches in the Edmonton Presbyterian church to-morrow at both morning and evening service. In the afternoon at three o'clock the children's day service will be held, at which addresses will be given by Rev. D. G. McQueen and Rev. A. M. McDonald, pastor of the Baptist church. The Sacrament of the Lord's Supper will be dispensed next Sunday morning.

At the College avenue Methodist church the morning service will be taken by Rev. C. H. Huestis. At this service the Sacrament of the Lord's Supper will be dispensed. At the evening service, Rev. Jno. Morrison of the London Conference, will preach. He will also lecture in the College avenue church on Monday evening.

Services will be held in the Kinistone avenue Methodist church to-morrow morning and evening.

"The Idol of Western Canada" is the subject of Pastor McDonald's address on Sunday evening in the Baptist church.

Rev. Principal Riddle, of Alberta College, will preach in the Methodist church Strathcona, to-morrow morning, and Rev. C. H. Huestis in the evening. To-morrow is the anniversary day in the Strathcona Methodist church.

Bishop Reeves, of the MacKenzie River District, is expected to arrive in the city to-day from Athabasca Landing. If he does he will conduct one of the services at All Saints church to-morrow.

PERSONAL

Miss Lundy, of Lacombe, is in the city to-day.

J. B. Holden arrived in Edmonton last evening from Leduc.

Supt. Constantine and Mrs. Constantine were in the city yesterday.

Miss Anderson and Miss G. B. Sutherland, of Leduc came up to Edmonton last evening.

Mr. John McManus has been spending a few days visiting Wetaskiwin friends this week.

R. J. Hutchings, of the Great West Saddlery Company, Calgary, is in the city to-day.

D. J. Bergen, C. P. R. engineer on the Wetaskiwin extension arrived in Edmonton last evening.

S. A. Dickson and A. M. Sutherland, of Fort Saskatchewan arrived in the city yesterday evening.

D. Latta left yesterday morning for Mexico where he was called on account of the illness of his sister.

Bishop Reeves, of MacKenzie river district, is expected to arrive in the city this evening from Athabasca Landing.

J. Armstrong, C. E., is in the city to-day from White Whale Lake where his party are engaged in surveying operations.

PUBLIC MEETING

A meeting in the interests of Frank Oliver will be held at Robertson's Hall Edmonton, on Friday evening next the 7th of October, at 8 o'clock. Mr. Secord has been invited to speak. All are invited.

THE WEATHER

October 1st.
Max., 65.
Min., 45.
Noon, 53.
Bar., 29.99.

Winnipeg, October 1.—The weather yesterday was mild and showery in Alberta and generally clear and mild in Assiniboia and Manitoba. The forecast is fair to-day in Manitoba and Assiniboia, showery in Alberta and Saskatchewan. Sunday will be unsettled with local rain generally.

MARRIAGE
